

INSTRUCTIONS FOR USE

BentonitMED VULKANMINERALIEN

BRIEF DESCRIPTION

Detox Powder or Detox Capsules.
Natural medical device to support the binding and elimination of heavy metals from the organism.
100% NATURE

COMPOSITION

Montmorillonite bentonite or montmorillonite bentonite in 500 mg cellulose capsules.

PURPOSE

This natural medical device supports the binding and elimination of heavy metals (Pb, Hg, Cr, Cd, Al and Ni) from the organism of adult persons. It may additionally reduce symptoms associated with chronically elevated heavy metal levels, such as fatigue and headache.

WARNING AND SAFETY INSTRUCTIONS

Interrupt the application if you notice unexpected side effects and consult your doctor. If constipation occurs, increase fluid intake, reduce dosage and consult your doctor if necessary. The medical device may only be used after medical consultation in patients with existing constipation, impaired kidney function, existing disease, during drug therapy or chemotherapy or radiotherapy. Breastfeeding or pregnant women, children and adolescents (under 18 years) must contact their doctor before using the medical device. Do not inhale product. Do not use at the same time as alcoholic, caffeinated and acidic drinks such as grapefruit, orange, lemon and pineapple juice. In case of eye contact, rinse the eyes thoroughly. Ensure sufficient fluid intake in the form of water or other non-alcoholic drinks during use. Not intended for continuous long-term use. Stop using if you notice unusual effects.

Side effects: Constipation (obstipation) may occur, especially during the first week of use. In very rare cases, flatulence, stomach pain, nausea, dizziness and tiredness may occur at the beginning of intake.
Interactions: If you are taking medication at the same time, make sure that there is a time gap of 2 hours. Take any medication before taking montmorillonite bentonite unless otherwise prescribed by your doctor.

MODE AND DURATION OF USE OF BENTONITE POWDER

Medical device for oral use: Stir ½ teaspoon (= 1 g) into a glass of water (250 ml) 2-3 times daily and drink immediately with meals. The maximum duration of intake is 12 weeks. In case of repeated use, a break of at least one week should be observed.

MODE AND DURATION OF USE OF BENTONITE (CAPSULES)

Medical device for oral use: Take 2 capsules 2-3 times daily with a glass of water (250 ml) with meals. The maximum duration of intake is 12 weeks. In case of repeated use, a break of at least one week should be observed.
